OF EMERGENCY SERVICES

SITUATION SUMMARY

Butts Incident, Vegetation Fire, Napa County (Update)

Fire Information:

Per ICS 209 dated 07/05/14 at 0514 hours

- 4300 acres brush, 70% contained
- Residential Structures Threatened: 180 Destroyed: 2
- Other Minor Structures Destroyed: 7
- Fire Management Assistance Grant (FMAG) was approved. FEMA-5057-FM-CA

Local Government Equipment Committed

- Six Local Government Strike Teams - (updated per Cal OES Fire Duty Officer)
- One Water Tender
- Two Engines

Total Personnel Committed: 1682

Cal OES Deployments

- Cal OES Assistant Fire Chief Salvate is assigned.
- Public Safety Communications has three technicians assigned to the incident.

Road Closures

- Butts Canyon Road north to Snell Valley Road is now open, and Butts Canyon Road and Guenoc Road two miles west of the Lake County line remain closed.
- Road closures being manned by California Highway Patrol

SITUATION SUMMARY

Northern California:

Modoc July Complex Modoc County (Update)

Fire Information:

2 miles south of Dalton Reservoir

Per ICS 209 dated 07/05/14 at 0600 hours

- 1,650 acres brush, 50% contained

Fires in the complex: Dalton, Dobie, Northern, Janes, 16 other fires for 74 acres.

Coleman, Vegetation Fire, Modoc County (Update)

Fire Information:

25 miles east of Fort Bidwell, California

Per ICS 209 dated 07/05/14 at 0548 hours

- 15,000 acres, 60% contained
- Threat to grazing land, Sage Grouse habitat, residential ranches 1-3 miles north and south

Gulch, Vegetation Fire, Modoc County (Update)

Fire Information:

15 Miles North of Canby along Hwy 139

Per ICS 209 dated 07/05/14 at 0600 hours

- SRA/FRA
- Unified Command with CAL FIRE LMU and Modoc National Forest
- Start Date / Time: 07/04/14 at 1546 hours
- 5 Fires, 1600 acres, Grass and Brush, 40% contained
- Moderate Rate of spread
- CAL FIRE Air and Ground Resources committed

SITUATION SUMMARY

Northern California: (Cont.)

Monticello Vegetation Fire, Yolo County (New)

Fire Information:

Highway 128 near the Monticello Dam, Winters, Yolo County

Per ICS 209 dated 07/05/14 at 0642 hours

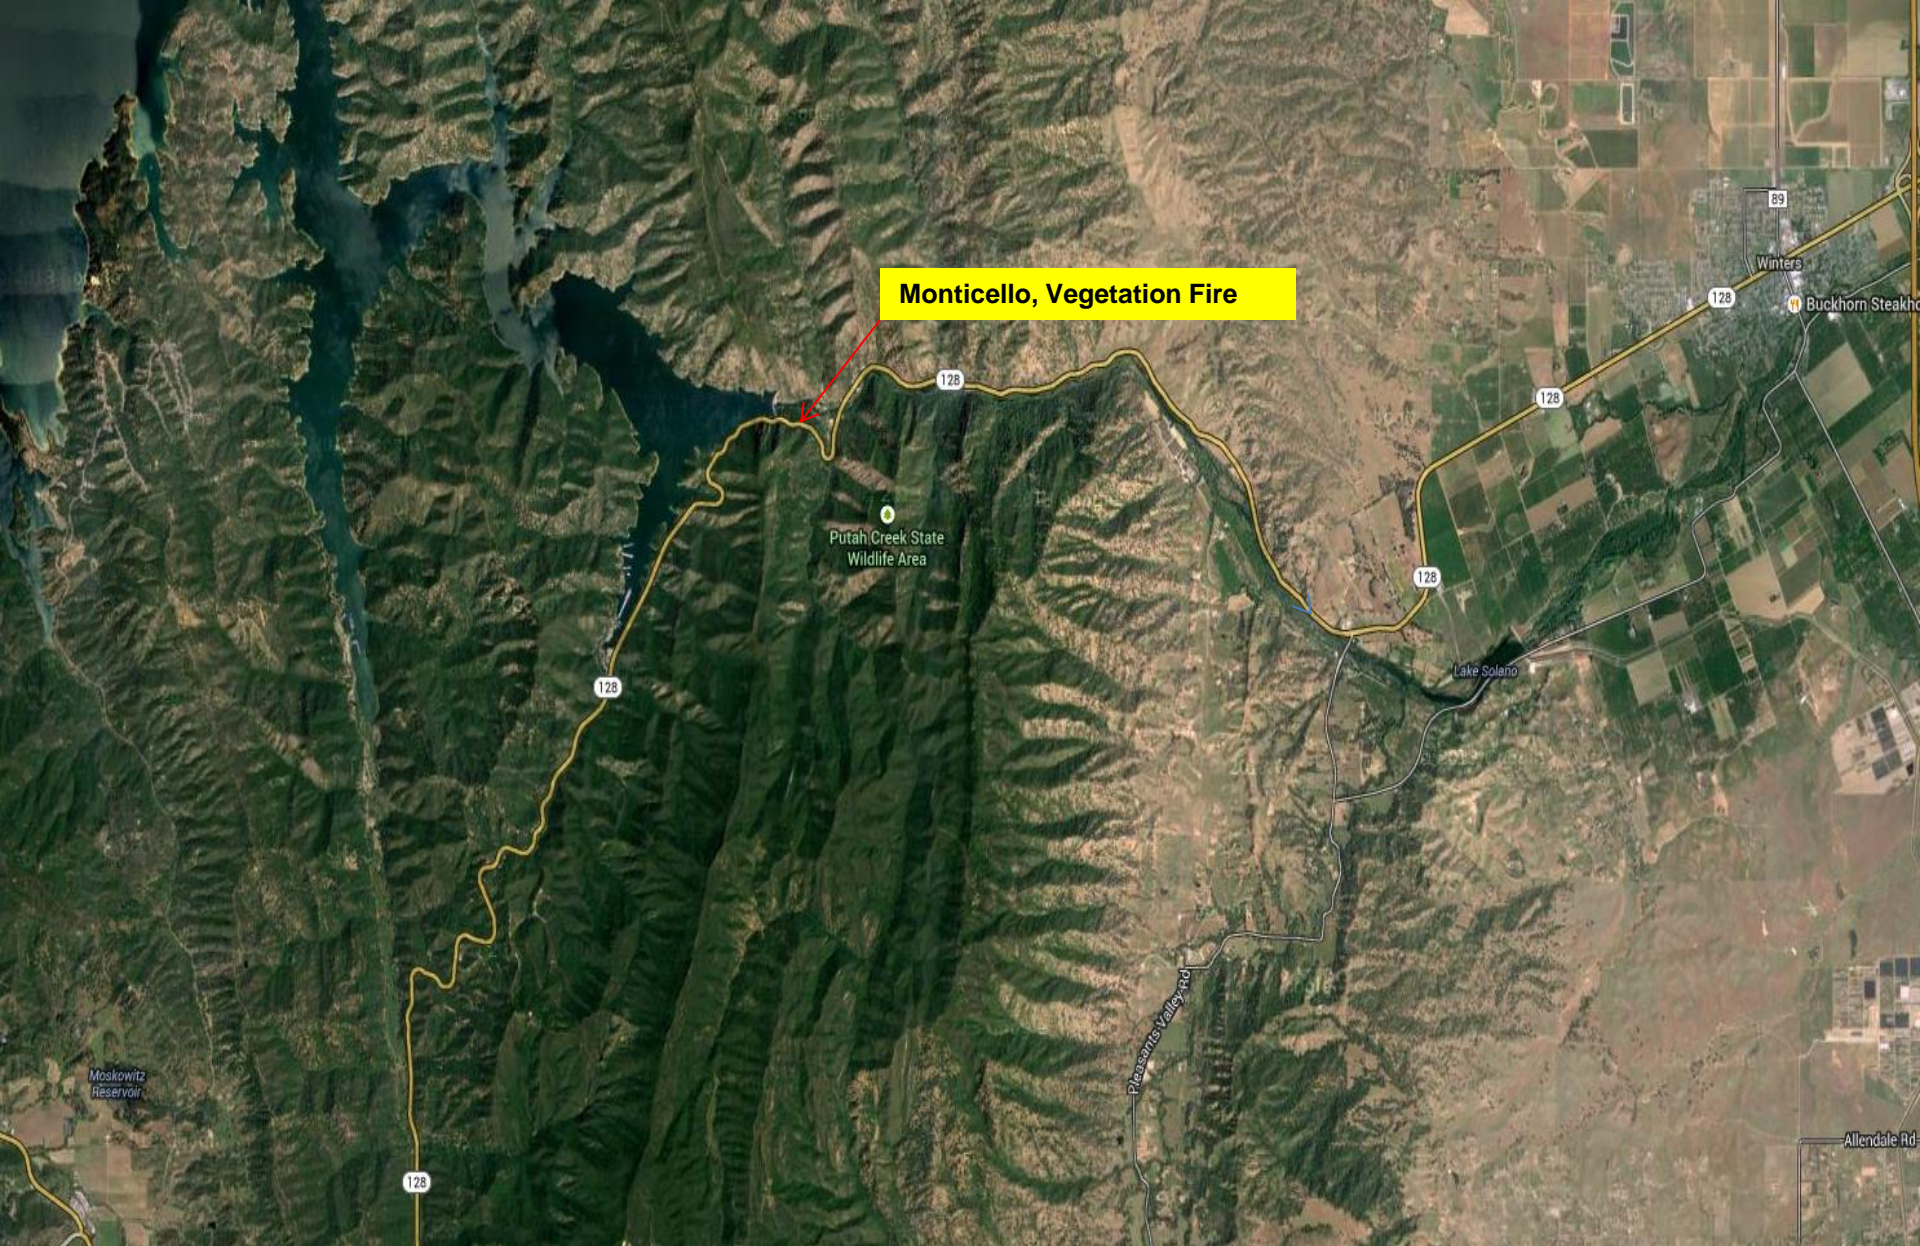

- SRA
- Start Date / Time: 07/04/14 at 2330 hours
- 1,000 acres, 5% Contained
- Moderate Rate of Spread

Liberty Fire, Solano County (Final)

Fire Information:

Liberty Island Road at Swan Road, Dixon

- LRA
- Start Date / Time: 07/04/14 at 1741 hours
- 176 acres and 100% contained

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Banner Incident, Vegetation Fire, San Diego County (Update)

Fire Information:

Per ICS 209 dated 07/05/14 at 0600 hours

- 217 acres brush, 90% contained
- 2 structures and 1 outbuilding destroyed
- No significant growth expected. Continued mop-up and line construction.
- Cal OES Assistant Fire Chief Art Torrez has been assigned to this incident
- Fire Management Assistance Grant (FMAG) submitted to Cal OES. The FMAG does not meet criteria and has been placed on hold.

Local Government Equipment Committed

- 1 Type III Strike Team

OES Equipment Committed

- 1 OES Type III Strike Team

Emergency Management:

Road Closures

- Route is returned to normal traffic from 2 miles east of the Junction of SR 79, at Wynola Rd to 11.8 miles east of the Junction of SR 79, at San Felipe Road.

Mariette Creek

Banner Vegetation Fire,
Vicinity of Julian, San
Diego County

SITUATION SUMMARY

Southern California:

Ranch, Vegetation Fire, Kern County (Update)

Fire Information:

10 miles west Lake Isabella, Kern County

Per ICS 209 dated 7/5/2014 at 0600 hours

- 150 acres, 0% contained
- Cooper Type 2 IMT assigned
- Fire is holding in place with the help of daily air support.
- No Local Government commitment

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Significant Weather

- Red Flag Warning in effect from 7/5/2014 at 1400 hours to 2000 hours for Modoc and Siskiyou Counties.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A strong ridge of high pressure will begin to build over the region today, allowing inland daytime temperatures to rise above normal. This heat wave will last through the middle of next week. Monsoonal moisture approaching from the south will bring a slight chance of thunderstorms to parts of the interior Monday through Wednesday.

San Francisco Weather:

A warming trend is anticipated for the weekend as a high pressure ridge over the desert southwest builds westward over California. The most significant warming will occur inland. Night and morning low clouds and fog this weekend will be confined to the immediate coast plus adjacent valleys.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Little change in daytime temperatures today with warming temperatures Sunday and Monday. Monday will be the warmest day with highs 10 to 15 degrees above normal. A gradual cooling trend is forecast for the rest of the week. There is a slight chance of thunderstorms over the mountains Monday through Thursday with the greatest chances Tuesday afternoon and evening.

Hanford Weather:

High pressure anchored over the four corners region will keep above normal temperatures across the central California interior through much of next week. An increase in monsoon moisture will bring some mid-level cloud cover with isolated thunderstorms developing each afternoon over the mountains and desert.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A large high pressure system will bring above normal temperatures to the area along with partly cloudy skies and a slight chance of a thunderstorm over the mountains and antelope valley. The marine layer will hug the coast from Ventura County northward.

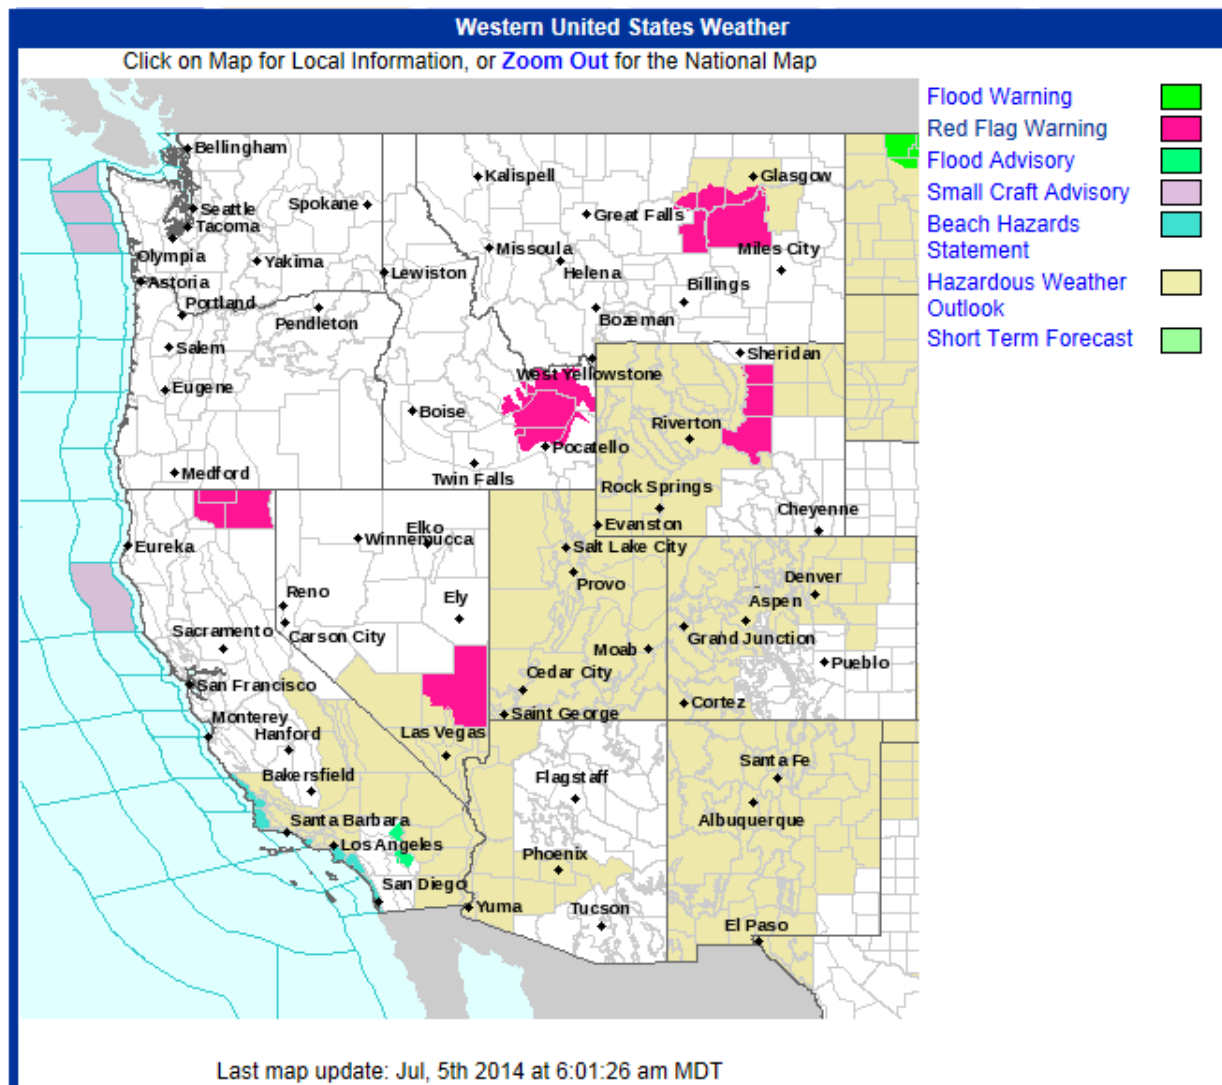

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure to the northeast will continue to direct some monsoonal moisture into far southern California well into next week, enough for a chance of thunderstorms, mainly for the mountains and deserts, and mainly during the afternoon and early evening. A shallow marine layer will continue to keep coastal areas cooler with a greater return of night and morning coastal low clouds and fog possible next week.

Southeast California Weather:

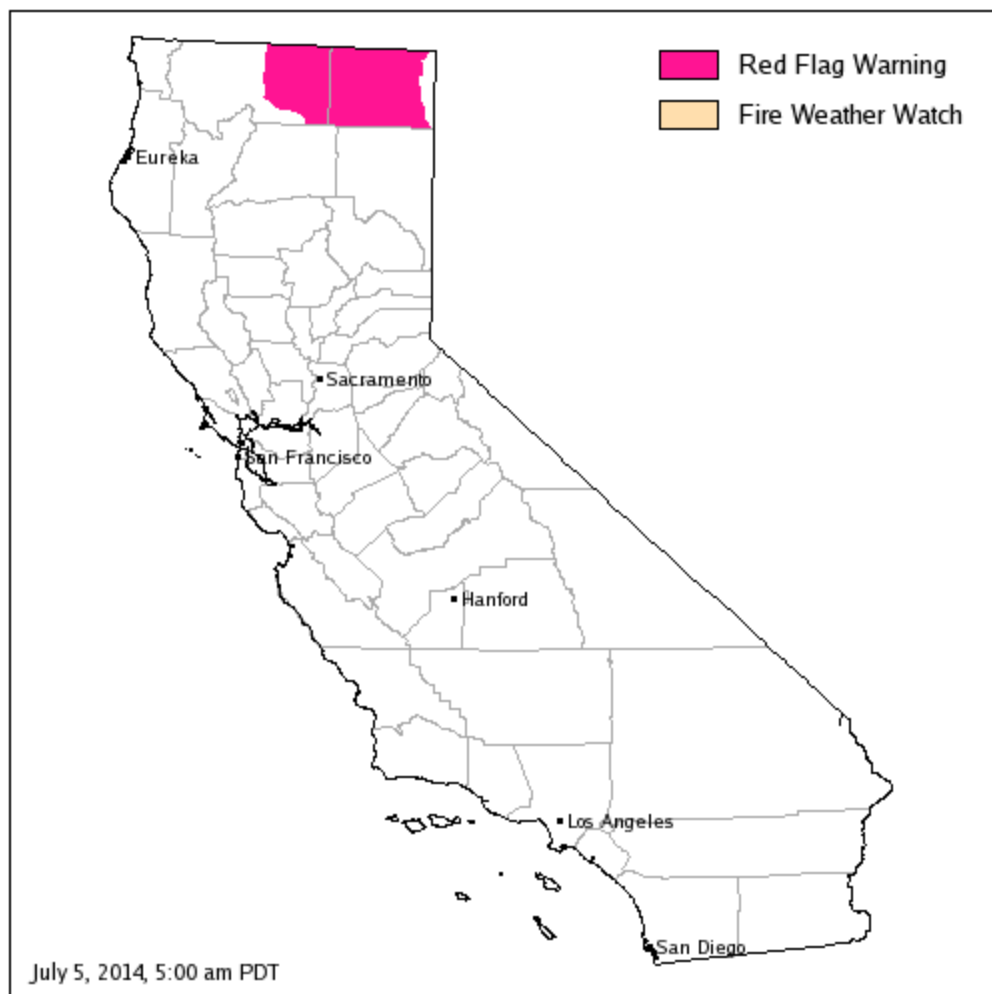

Monsoon moisture will remain in place across the region through the weekend, resulting in slightly cooler temperatures, higher humidities, and daily chances of showers and thunderstorms. The threat of scattered showers and thunderstorms will continue through next week with temperatures nearly normal for the beginning of July.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.****

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-3986**, 7/4/17, 1955 hours, The International Emergency Response Coordination Center (IERCC) advised of a SPOT device activation within Lake County. The Cal OES Law Duty Officer is coordinating resources.

Ongoing Cal OES Missions

- **2014-LAW-3978**, 7/3/2014, 1523 hours, The San Bernardino County Sheriff's Department is requesting mutual aid resources to assist in the search for human remains as part of an active, ongoing homicide investigation in the Twenty Nine Palms area. The request is for a mine team and HRD K-9's to search undisclosed area's on Saturday and Sunday, July 5 & 6. The Law Branch Region I Coordinator contacted the Los Angeles County Sheriff's Department for their Mine Team and Cal OES Law Branch is coordinating the HRD K-9 response.
- **2014-LAW-3981**, Glenn County Sheriffs Office is requesting Human Remains Detection (HDR) regarding a kayaker that located the lower portion of a human leg (shoe still attached) in the Sacramento River. Their detectives have been trying to identify the body part and have also been searching the area for additional parts without any success. The request is for an HRD K-9 to search the area for additional remains and to rule out a burial site. Butte County SO has agreed to assist with the mission on Monday, July 7.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
